Un piccolo universo governato dall'armonia che restituisce luce limpida e amplificata da corpi illuminanti vivacizzati dal colore. Le superfici materiche sono allo stesso tempo brillanti e morbide, vive e attraenti quasi dialogassero tra loro.

They appear as a small universe ruled by harmony, which returns a clear and amplified light from luminous elements, brightened up by colours. The tactile surfaces are shiny but soft at the same time, they look lively and attractive as they are talking.

Lampade da tavolo con struttura in metallo oro opaco, oro rosa opaco o grafite opaco; appliques disponibili anche in laccato bianco. Diffusori in vetro borosilicato. Finiture diffusore; appliques finitura metallica ossidata opaca nei colori senape, blu avio, verde salvia, rosa cipria, sabbia, bianco e nero; finitura trasparente.

Lampade da tavolo disponibili nelle forme: Low, Tall, Fatty e Little.

Appliques disponibili nelle forme: Fatty e Slim.

Una famiglia di lampade a sospensione costituite da un aggregato iconico di elementi leggeri che ricorda un monile.

Un disco sottile accoppiato ad un'asola da cui si snoda il cavo di sostegno ed alimentazione: elementi assoluti, immediati, resi preziosi dal materiale e dalle finiture lucide e spazzolate.

L'illuminazione è ottenuta da sorgenti LED disposte attorno ad un diffusore LGP che proietta un fascio luminoso morbido e diffuso mai abbagliante.

A family of pendant lamps makes up of an iconic group of light elements that reminds to a jewel.

A thin disk matched with a loop, from which the hanging cable and the power source twist and turn: absolute and immediate elements, made precious by the materials and the glossy and brushed finishes.

The lighting is obtaining by Led sources organized around a LGP shade, which projects a soft and diffused but never dazzling light beam.

Lampade a sospensione con struttura in metallo nelle finiture lucide o spazzolate:
oro, oro rosa e nichel nero.

*Pendant lamps with metal structure in glossy or brushed finishes:
gold, pink gold and black nickel.*

Un'applique caratterizzata dall'accostamento di due elementi semplici ed armonici: una semicupola sporgente accostata ad un piano a parete che richiama l'ombra stessa dell'oggetto.

Il fascio di luce che ne esce è morbido e diffuso e la parete stessa dove la lampada viene installata agisce indirettamente come riflettore.

La scelta dei materiali e delle finiture gioca un ruolo chiave nel progetto. La matericità dell'elemento lo rende un oggetto importante ed allo stesso tempo silenzioso perchè possa inserirsi con discrezione in qualsiasi interior sia nella versione in metallo spazzolato (oro e oro rosa) che nella versione verniciata con coating materico in bianco, peltro e sabbia.

A wall lamp, which is characterizing by two simple and harmonious elements joint together: an overhanging half-sphere matched with a wall plane that remind to the shadow of the object itself.

The light beam, which comes through, is soft and diffused and the wall where the lamp is placed acts indirectly as a reflector.

The selected materials and finishes play a key-role in this project. The tactile component of this element allows it to become at the same time an important but silent object, to be included with discretion in all kind of living space, both in the brushed metal version (gold and pink gold) than in the tactile coating varnished finishes (white, pewter and sand).

Applique realizzata nelle finiture:

metallo oro e oro rosa spazzolato - metallo verniciato peltro, bianco e sabbia.

Wall lamp in the finishes:

brushed metal in gold and pink gold - varnished metal in pewter, white and sand.

CLASH

Artefatto

Invertendo i fattori il risultato non cambia.

Ed è proprio così che nasce Clash, la fragilità e la leggerezza visiva del cristallo contengono la robustezza e tenacia del metallo, che diventa fonte luminosa primaria.

Questa equazione riuscita e poco scontata, crea un'elegante applique adatta ad ogni ambiente.

Turn it on its head and nothing changes.

This is how we gave the birth to Clash, where the fragility and the visual lightness of the crystal is combined with the strength of the metal, which becomes the main lighting source.

As a result we made a timeless wall light suitable for various environments.

Applique con struttura interna in metallo nelle finiture peltro o ottone antico e struttura esterna in vetro borosilicato trasparente o fumé.

Wall lamp with inner structure in metal in the finishes pewter or antique brass and outer structure in transparent or fume borosilicate glass.
